

Civil Engineer

City of Miami Gardens, FL. (109,000)

Posted Date: 06/24/2013

Deadline: 07/08/2013, or until filled.

Starting Salary: \$55,152 min. to \$68,940 mid. /DOQ

Nature of Work:

This is professional engineering work of average difficulty performed in the field or office in connection with investigation development, design, construction, and maintenance of Public Works projects.

An employee in this class is responsible for the performance of varied engineering duties in connection with major phases of municipal Public Works programs. Work involves the independent application of engineering skills and knowledge to engineering projects of a Public Works nature. The employee in this class is expected to plan working details and to make technical decisions; however, work assignments are received from a professional superior who defines the scope of the work to be performed and reviews the work in process and upon completion. Major technical problems are discussed with a higher ranking engineer before taking action.

Minimum Requirements:

Graduation from an accredited college or university with a Bachelor's degree in Civil Engineering or other appropriate engineering field. Five (5) years responsible post-graduate experience in design, construction and plan review of roadway, stormwater systems or other Public Works and private development projects, or closely related engineering experience required. Engineer in Training (E.I.T.) preferred. Must possess and maintain a valid Florida driver's license and satisfactory driving record throughout employment. Proficiency operating a personal computer using Microsoft Office and delivering exceptional customer service required.
